Description

Manufacturer Description for the InFocus IN126ST Projector
The InFocus IN100 Series are not only some of the lowest cost projectors we've ever sold, but also have one of the longest-lasting lamps – for incredibly low total cost of ownership.

These value-packed projectors are easy to buy and built to perform with high brightness, high contrast ratio and BrilliantColor technology. Plus, their slim, compact design and light weight make them as easy to move around as they are to install.

Lowest Total Cost of Ownership :The IN100 Series are not only the lowest priced office/classroom projectors we've ever offered, but their lamp lasts 50% longer than the previous generation. There aren't even any filters to replace. It's an unbeatable value.

Compact, Slim and Light : The IN100 Series is small and lightweight for easy portability from one room or building to the next. It's slim design is only 70 mm tall and weighs only 2.17 kg.

Description

Golf-Grip Grip Training Aid

- The idea behind the Golf-Grip training aid is to make sure you have the perfect grip set up every time you make your swing. Using this device will allow your hands and arms to create muscle memory so you do it without thinking.
- This unique tool is easy to use and you will see fantastic results with regards to your consistency, control and distance. The Golf-Grip can be used by anyone from beginners to professionals, as a beginner you need to learn the right position from the start where as a better player you may slip into some bad habits and need to refresh your hands memory.
- The Golf-Grip is a specially tailored training aid for one of the most important aspects of your game. It can be easily stored in your pocket or golf bag when not in use and can also be quickly and easily moved between clubs when using it to practice on the golf course.
- After 5 years in development this training aid has the perfect design to help you create muscle memory which after prolonged usage of the Golf-Grip will allow you to achieve the perfect grip without assistance from the device.
- Golf-Grip helps to prevent small issues within your grip and swing which may have a massive impact on your game. It prevents you re-gripping your club which involves you changing your grip at the top of your swing to prevent you hooking or slicing the ball.
- Using the Golf-Grip during your practice will help you to work on your alignment and accuracy and help you generate more distance and excellent control for a cleaner and more focused swing.
- The easy to use Golf-Grip can be used on any golf club and is simple to attach. By simply attaching the aid to the shaft and sliding it up onto your grip mean it is attached and you can use the alignment lines to make sure the Golf-Grip is in the correct position.
- The uniqueness of the Golf-Grip allows you to discreetly work on your grip due to the black colouring as it will match the majority of golf grips.
- The Golf-Grip is made from a strong and durable Pebax TPE and TPR mix which allows the grip aid to be strong, durable and comfortable which is perfect for hitting shot after shot.

The Golf-Grip will fit on standard and oversized grips.

Description

Church Hymnary (4th Edition) Melody And Words (Music Book)
The first new edition of the popular Church Hymnary for over thirty years, and edited by some of the best-known names in Christian music, this long awaited publication contains over 750 hymns and 100 psalms. Approximately a quarter of the new selection is made up of new items written since the third edition was published in 1973, not least from Iona which has made such a distinctive contribution to modern worship music. Many more entries have been introduced from around the world, primarily the USA and New Zealand, but also translations and adaptations of little known material from such countries as Hong Kong, Singapore, Korea, Japan and Zimbabwe. These complement the traditional and contemporary hymns and tunes from established authors and composers. The Church of Scotland has 600,000 members, with a further 100,000 young people and adults taking part in a range of church-based activities. For a full contents listing, please contact our Norwich office.
[Publisher]

This new hymnal, widely known as CH4, consists of over 850 hymns and psalms and is the latest in a series published successively in 1898, 1927 and 1972. A considerable number of twentieth century items have been introduced from around the world, primarily the USA and New Zealand, but also translations and adaptations of little known material from such countries as Hong Kong, Singapore, Korea, Japan and Zimbabwe. These compliment the tradional and contemporary hymns and tunes from Uk authors and composers.

Description

Really Easy Chorals is the easiest introduction to choral singing! Five contrasting songs are arranged for unison singing in a comfortable range with an optional second part.

Versatile and flexible, this is perfect repertoire for beginner groups. This book includes a CD of great backing tracks and demonstrations of each song – making rehearsals and performances as easy and enjoyable as possible!

Vocal ranges are given at the start of each song, and where the second part does not go as high, its top note is placed in parentheses.

Description

Rollo Dilworth's *Choir Builders* comprises fundamental Vocal techniques for classrooms and general instruction. A collection of fifty-four inventive and educational songs, warm-ups and exercises that will have your choir begging for more! A CD of backing and demonstration tracks is included for quick learning and to have readily available accompaniments for non-musical teachers.

The exercises are clearly divided into different sections to be appropriate for Unison, 2 and 3 part choirs, full mixed choirs and upper and lowe voices.

Description

10 of the all-time top popular songs arranged for two-part voices with fantastic new accompaniments for piano or keyboard.

The arrangements are all by established and highly skilled composers who know what really works well with choirs.

The book comes with an accompanying CD containing both practice and performance tracks for all the songs.

Description

Easy to use and smart in design, the Beko BDC643W Freestanding Electric Cooker in Black features a fan main oven, a 4 zone ceramic hob and a separate full width grill. This product has an energy efficiency rating of A and has a massive overall capacity of 100 litres.
The main oven has been fitted with an Interior Light, which means that you no longer lose heat from the oven by checking your food. The light allows you to view the cooking progression of the food through the window of the oven door.
THIS ITEM HAS BEEN INSTALLED AT THE LOCHMABEN BOWLING CLUB

The Beko BDC643W features removable glass inside the front door, making it much easier for you to clean. This model features diamond quality easy wipe enamel on the interior. A wet sponge and a bit of elbow grease will be enough. You can rest easy in the knowledge that the rest of the day is yours.
Additional features include Fan and Grill cooking options.

		Attachments:	

Description

Sports Tutor Tennis Tutor ProLite ball machine uses the same counter-rotating wheels as the Tennis Tutor. It weighs only 17 kgs and has a case to enable carrying like a suitcase. Once you have placed the machine on the court, load in the balls and in five seconds, you are ready for action.

Ball speeds are variable from 16 to 55 mph and the ball interval is adjustable from 2 to 10 seconds. It has a non-stop running time of up to 3 hours, which gives you 6 hours of court practice. Alternatively you can opt for the mains version, so no need to worry about battery time.

Sports Tutor is the number one ball machine brand in the USA.

		Attachments:	

Description

Featuring a brightness of 2800 ANSI lumens, a high contrast ratio of 13000:1 and a SVGA resolution, the cost-effective and eco-friendly MS517 offers a stunning full-screen presentation with the finest details regardless of the ambient light level.

Eco blank mode
The eco blank mode allows teachers to blank the projection screen whenever they need to direct their students' focus back on them - or simply when the projector is not in use. When activated, this special feature dims the lamp power automatically, lowering the total power consumption by 70%.

SmartEco mode
The SmartEco mode cleverly adjusts the lamp power to maximize power saving by delivering the best contrast and brightness performance using only as much light as needed.

No source detected mode
The automatic switch to eco blank mode after the projector is turned on for over three minutes without a display source, eliminating unnecessary energy waste and prolonging the life of the projector lamp.

0.5 W in standby mode
When inactive, the MS517 keeps power consumption to a minimum with 0.5 W standby power, achieving what was once a challenge for earlier projector models. This technological advancement in energy saving certainly helps extend the projector lamp life and lower energy costs.

Supports 3D Blu-ray via HDMI
Designed to maximize your audiovisual enjoyment, the MS517 brings to you unlimited 3D entertainment via HDMI. The 3D formats supported are 3D field-sequentials,3D frame-packing,3D top-and-bottom and 3D side-by-side.

User-friendly I/O port design
To enable easy access for everyone, the I/O ports are clearly printed on the projector housing so users can find the port they need straight away. No squinting your eyes or bending over for a closer look.

Instant restart
The instant restart feature gives teachers a 90-second window period to turn the projector

back on immediately when it has been switched off by accident - no waiting necessary.

Quick cooling
Cooling time itself has been reduced by over 60%,saving your time and minimizing the risk of heat damage to sensitive internal components.

Specification
Product Description BenQ MS517 DLP projector - 3D
Device Type DLP projector
3D Capable Yes (3D glasses sold separately)

Description

Light weight and easy to use indoor / outdoor LED party lights, supplied with a high quality outdoor transformer.
Each coloured globe is weatherproofed for occasional outdoor use and illuminated by a coloured LED. Sometimes called festoon lights, these party lights are easy to use and reliable. They are supplied with a full outdoor rated IP44 transformer and a 5m dark cable from the transformer to the first bulb. The globes are spaced at 25cm intervals to give you a full 5m of lights.
Each bulb has a hook at the top, making them very easy to hang. The bulbs cannot be unscrewed or replaced.

Description

The SubZero 450W 15" Active ABS PA Speaker
Our new PA speaker has been designed for use in both portable systems, as well as in permanent installs. Constructed from a tough, lightweight ABS cabinet, this speaker will take the tough knocks of live use, whilst still guaranteeing you a great sound every time.
The SZKB15A comes with all the mounting options you could possibly need; a poll mount slot, rigging points at the top and rear, as well as rubber feet and integrated stacking system. You can even side mount it for use as a stage reference or feedback monitor.
The sound reproduction is handled by a 15 inch mid/low frequency driver and a 1 in throat compression driver tweeter, with a 2.2KHz electronic crossover, ensure that you get a clear, broad and wide ranging sound across all frequencies; high, mid or low. With simple complementing inputs and controls, you will be up and going with a great sound in no time at all.
SubZero 450W 15" Active ABS PA Speaker
Rated Power: 300W RMS Max Power: 450W Speaker Size: 15" Frequency Response: 50Hz-20KHz Sensitivity: 0dBu Max SPL (dB): 121dB (constant); 127dB (peak) Input connectors: XLR and ¼" jack Controls: Volume, Low Frequency, High Frequency Indicators: Power indicator light, Signal indicator light, Clip indicator light Weight: 22KG Dimensions: W 495mm x D 365mm x H 720mm Warranty: 1 year
8-Channel Mini Mixer with USB
Combining great build quality and features with outstanding value for money, this mixer offers what you would normally only expect from a much higher priced mixer. With it's compact size, and USB connectivity, it is an incredibly versatile mixer for studio, live and computer use.
Despite its small size, this mixer has all of the features you need. It has a 48V phantom power which can power condenser microphones, as well as dynamic microphones, with a discreet pre-amp with less than 0.08 total harmonic distortion.
The USB port means that you can easily connect the mixer to your computer, for both recording and playing, making it great for DJ's, home recording and for live sound use. The sturdy metal body and compact size also means that it is ideal for gigging, and can take a few knocks.
8-Channel Mini Mixer with USB by Gear4music

Description

Outback's Spectrum 3 Burner Flatbed Gas Barbecue is ideal for large families as it features a generous sized Grill and Cooking area for easy Barbecuing. Not only does this Gas BBQhave the space it 's also super easy to use and control, so provides a much more relaxed and enjoyable Barbecuing experience for the entire Family. It is the perfect Barbecuefor garden parties as it includes a Warming Rack ideal for keeping left over's or warming some Burger Buns!
'Flavourising' Bars deflect any fats away from the naked flames to avoid flare ups which burn foods, while allowing the juices to evaporate back into the cooking area to give great tasting food and a traditional Barbecueflavour.

Important Features of Outback's Spectrum 3 Burner Flatbed Gas Barbecue:
Size: L1240mm x W591mm x H865mm
Cooking Area: W475mm x D420mm
Box Size: L803mm x W598mm x H310mm
Weight:37.47kg
Colour: Black, Silver and Pine

		Attachments:	

Description

This design of handcarder has evolved in our workshop over the last 35 years. When we first started making them a study of the existing designs lead us to believe we could make improvements. First was to make the handle easy to grip by making it nice and chunky. The current turned design is what it became. To avoid scraping your knuckles on the card cloth we tried different angles of setting of the handle and again arrived at the current design. For strength and lightness we have used plywood for the backs. Finally the card cloth was decided on. A three ply woven cotton foundation with rubber facing, this gives the desired support to the wires and flexibility. What we now have has resulted in sales of thousands of them over the years. Finally a few years ago we obtained the machinery from our supplier to manufacture the card cloth. We now produce the card cloth in tin plated and stainless wire in various point spacing.□
These are better suited for fine fibres including cotton and also the finer wools. They are made in the same way as the standard carders but have a finer set wire covering. 108 points per square inch.
* 350gms / 22cm x 12cm overall size. Carding surface 18cm x 9cm □
* Backs made from birch ply, for lightness and strength.* Balanced to give a light easy action.
* Covered in 108 point card cloth with 3 ply rubber back for durability. Tin plate or Stainless steel wire option. The only advantage of stainless wire is the resistance to rust if they ever got wet.
* Wire is 25 Carder Wire Gauge. Over the last 40 years this has been found to be the optimum wire for best handcarding results.
Please Note: The card cloth wire has a light coating of oil to lubricate it during manufacture. This is normally so light that it is not noticeable. Sometimes the application has been a little more and it can show on the wool. We suggest that you initially use the carders with some

Description

- Two wireless interactive microphones. Featuring stylish interactive motion sensors and lights, the microphones respond to singers' actions and can be used as percussion accompaniments. With the freedom and encouragement provided by the high-quality wireless microphones, everyone can live their singing dreams in style
- The best music. "Lips" will include a diverse selection of songs, including your favorite blasts from the past such as "Bust a Move" by Young MC, as well as new songs from breakout artists such as "Mercy" by Duffy and "Young Folks" by Peter Bjorn and John
- Sing your music collection. "Lips" allows people to sing along with friends to music from their personal collections
- Play along. Using the standard Xbox 360 controller, up to two people will be able to join the fun and choose from a variety of percussion accompaniment to play along with the music in "Lips." By placing control of various tambourines, claps and of course the ubiquitous cowbell at the fingertips of anyone with a controller, "Lips" creates a social entertainment experience for friends, co-workers and kids alike

Constant flow of new music. From the songs that will come with the game, to your own music collection and the ability to download new tracks from Xbox LIVE Marketplace, "Lips" will continually provide new music to bring people together and keep the party going.

Description

1.5m Full Bench With 2 Spar Back
The 1.5m full bench with 2 spar back is available to order today all prices shown are inclusive of delivery to the UK mainland.

Our benches have become very popular with the local authority, simply as they are very strong, weather durable, and need no treatment, but also as they are made from recycled plastic.

All Solway benches can be hand inscribed with a memorial plaque message of your choice see related products for your 1.5m full bench with 2 spar back.

Recycled plastic does not fade so it keeps its appearance without the need of paint or stain, eliminating expensive labour costs and environmental damage to your 1.5m full bench with 2 spar back.

Description

All the accessories you'll need are included in a convenient, easy to carry and set up package - and the good news is you don't have to be a sound engineer to run it!

Superb Sound Quality

Behringer already make some of the best-sounding audio mixers, amplifiers and loudspeakers on the planet, it should come as no surprise that the EPA300 provides far superior sound quality than other products in this class. The two satellite speakers feature custom designed 8" woofers and 1.35" aluminum diaphragm compression drivers for incredible fidelity and clarity you might not expect from a loudspeaker system this small.

Control Freak

Channels 1 - 2 feature our high-quality Invisible Mic Preamps (IMP), which have been praised for their transparency and headroom. A Level control is provided with a Clip LED, so you can dial in the perfect signal level. We've also provided a Pad switch for those occasions when you have to contend with "hotter" than normal input levels.

Phantom Power is available, so you can use studio-grade condenser mics. Overall system response is handled by a 5-band stereo graphic EQ, and our proprietary FBQ Feedback Detection System helps you track and eliminate those annoying mic squeals.

Additionally, each input channel has a two-band EQ (Bass and Treble), Balance (allowing you to place the signal wherever you want within the stereo image) and an Effects level control. The EPA300 features an FX level control per channel with 100 state-of-theart 24-bit digital FX to choose from. FX can be turned off/on via any standard footswitch (not included).

Speaking of FX

If you're making a speech, chances are you won't need it, but if you're playing a musical instrument or singing, you might want to add some effects. So, we've included a 24-bit stereo FX processor with 100 great-sounding presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects to sweeten your performance. And if you want to sing along with pre-recorded tapes or CDs, the EPA300's Voice Canceller function can remove virtually all the vocals from tracks played back through channels 5/6 with the simple flick of a switch.

It's All About Connections:

The EPA300 comes ready for your input, literally. Channels 1 - 2 accept balanced XLR mics, as well as balanced and unbalanced ¼" line-level sources, such as electronic keyboards and the like. Stereo channels ¾ and 5/6 accommodate RCA and ¼" unbalanced inputs, such as drum machines, keyboard sound modules, etc. All in all, there are enough mic and line-level inputs to handle a small band.

A Bonus Channel

Want to play some of your favorite tunes at the company party? Just plug a CD/MP3 player into the Stereo Aux Inputs and crank it up! You don't even have to give up a channel, just control the volume from the player. It's like getting eight channels for the price of six!

Everything You Need

The EPA300 is a complete system. Just set up the main unit on a tabletop, deploy the speakers and connect them with the included cables. Connect the high-quality dynamic microphone and hit the power switch - voilá, instant PA system! There is even an onboard storage compartment for the included microphone, accessories and cabling.

Features/Specifications:

- Ultra-compact 300-Watt, 6-channel portable PA system
- Enormous power, incredible sonic performance, and super-light weight means no more lugging around dead weight
- Extremely powerful 8" woofers and 1.35" aluminum-diaphragm compression drivers for incredible sound reproduction
- Studio-grade 24-bit stereo FX processor with 100 awesome presets including reverb, chorus, flanger, delay and pitch shifter
- Revolutionary FBQ Feedback Detection system instantly reveals critical frequencies for easy feedback removal
- 6-channel mixer section features 2 mono and 2 stereo channels plus separate CD inputs
- 2 high-quality mic preamps with switchable +48 V phantom power for condenser microphones
- Effective, extremely musical 2-band EQ, switchable Pad and Clip LEDs on all mono channels
- Stereo 5-band graphic EQ allows precise frequency correction of main outputs
- Voice Canceller function removes singer's voice from recordings for Karaoke applications
- Comes with one BEHRINGER XM1800S microphone, mic clip and 20' cables
- Integrated storage compartment for microphone, cables, and accessories
- "Planet Earth" switching power supply for maximum flexibility (100 - 240 V), noise-free audio, superior transient response plus low power.

High-quality components and exceptionally rugged construction ensure long life

Purchase Price:	£135.00	**Home Phone:**	
		Attachments:	

Description

The AL-KO Aquatrolley is a convenient mobile watering system, powered by a rechargeable 12v battery. With a large 26 litre reservoir, and large, easy rolling wheels, it can carry as much as 3 times as much water as a traditional watering can without the associated strain of lifting and carrying.

The extendable spiral hose makes for easy watering of plants both high and low to the ground, with an accurate shower spray nozzle ensuring accurate watering both indoors and out.

The Aquatrolley's ease of use, wide range and manoeuvrability makes it ideal for gardens with hard to reach areas, steps, and gardens without a nearby water supply.

Description

QTX QR15PA 15" 100W Portable PA System W/ 2 Radio Mics & MP3 Player
This portable PA is one of Pro Audio Centre' best sellers and it's easy to see why!.. Essentially it's a speaker with a built-in amplifier that can run from mains electricity, or from it's own internal rechargeable battery. The system is supplied with 2 handheld wireless microphones and has a built in MP3 / USB/SD card media player. The retractable trolley handle and attached wheels make for ease of transporting it between venues. The QR series of portable PA systems really are hard to beat for the money!

This package includes:

- 1 x QTX QR15PA
- 2 x VHF Wireless Microphones
- 1 x UK Power lead
- 1 x EU Power lead

The QR15PA is suited to:

This PA is genuinely versatile and would suit all manner of uses such as presentations, excerice classes, meetings, parties, fetes, places of worship etc. Audiences of up to 150 people (dependent on use).

Frequently Asked Questions

Is this PA suitable for my requirements?

Not sure which PA to go for? No problem - call 0113 880 0138 to speak to one of our technical advisors or fill in our contact form.

I don't know the first thing about PA systems, is it easy to use?

The QR series of PA are particularly easy to use and come complete with instructions, should you need them. We also offer free support on all our products by phone, web chat or email.

Can I connect my iPod / iPad / MP3 Player / Laptop?

Yes you can - Look in the Related Products section above for the iPod connection lead. It's also suitable for iPads, MP3 players, laptops or any other device with a 1/8" jack headphone or stereo audio socket.

I like this system but I need a headset / tie clip microphone

Look in the Related Products section above for a selection of our wireless microphone systems which are compatible with the QR12PA

Can I use it outside?

Yes, you can use this PA outside but it is not weatherproof so will need to be kept out of the rain. We generally recommend using a marquee.

Description

Behringer Xenyx 802 Mixer Compact Mixing Console

Need to accommodate a vocal duo in a hurry? Got a small choir in need of a little projection? The BEHRINGER 802 mixer has everything you need to give a small multi-vocal performance a robust sound.

A Bit of Input
The 8-input, 2-bus XENYX 802 has two XENYX mic preamps with +48 V phantom power, making it possible to use two dynamic or condenser microphones. The three-band British EQ is lauded throughout the sound engineering world for its warm, musical sound. You can use the 802's effects send and return jacks to hook up to an external effects processor.

Play music between sets via the RCA CD/Tape inputs (assignable to main mix or control room/phones outputs) and record your performance to an outboard recording device via the RCA outputs.

Little Wonder
Weighing in at just 2.2 pounds, the XENYX 802 is the portable, practical way to turn a small performance with multiple vocalists into a sonic gem. Choirs, folk duos, coffee shops and karaoke lounges agree the XENYX 802 packs superior sound into small places.

Value
Lending optimum sound quality to small-scale performances has never been this easy or affordable. The XENYX 802 provides incredible versatility at a price other mixers in this class simply cannot touch. Test drive an 802 at your nearest BEHRINGER dealer today.

- Premium 8-Input 2-Bus Mixer with XENYX Mic Preamps and British EQs
- Premium ultra-low noise, high headroom analog mixer
- 2 state-of-the-art XENYX Mic Preamps comparable to stand-alone boutique preamps
- Neo-classic "British" 3-band EQs for warm and musical sound
- 1 post fader FX send per channel for external FX devices
- 1 stereo aux return for FX applications or as separate stereo input
- Main mix outputs plus separate control room, phones and stereo CD/tape outputs
- CD/tape inputs assignable to main mix or control room/phones outputs
- High-quality components and exceptionally rugged construction ensure long life
